ABOUT US

WOORBLE is a next-generation manufacturer of PVC Laminates, based in Ahmedabad, Gujarat, India's hub for innovation and industrial growth. Established with the goal of transforming the way surfaces are designed and protected, WOORBLE brings together premium raw materials, design expertise, and a passion for quality.

We serve a diverse clientele ranging from architects, interior designers, contractors, builders, furniture manufacturers, and end consumers, helping them create functional and beautiful spaces. Whether it's residential interiors, office workspaces, retail stores, hotels, or large-scale infrastructure projects, WOORBLE laminates are trusted for their consistency, versatility, and long-lasting performance.

CORE
STRENGTHS

At WOORBLE, we believe laminates are more than just protective layers - they are a statement of style, strength, and sustainability. That's why our products are engineered to be scratch-resistant, waterproof, termite-proof, and fire-retardant, while still offering a wide palette of finishes and designs.

TECHNICAL STANDARDS

Adhesive
These laminates are compatible with standard laminating systems and can be applied using most conventional water- and solvent-based adhesives commonly used for plastic laminates. However, the use of heat-activated adhesives is not recommended.

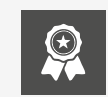

Lamination
Achieving a perfect lamination requires precision. Ensure that the substrate surface is completely free from dust, wax, plywood chips, or any other contaminants that could interfere with bonding. Avoid applying external coatings such as PIJ base, lamination wax, or similar substances, as they may compromise product quality.

Protective Film
Remove the protective film within seven days of laminate installation.

Maintenance
To clean the laminate, avoid using cleaning agents containing acids, alkalis, or abrasive materials. Direct exposure to sunlight should be minimized to prevent color fading.

Warranty
We are committed to delivering flawless products, free from manufacturing defects. Inspect the products before installation, as any liability will be limited to the cost of the product itself.

LAMINATE & LINER

- Pasted Laminate Thickness: 1.25 mm (0.10mm) Available in 1 mm to 3 mm thickness on order.
- Liner Thickness: 0.72 / 0.82 / 0.92 mm (±0.05 mm)
- Standard Sheet Size: 1220mm X 2440 mm.
- Sheet Options: Any length can be provided on order.

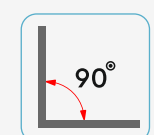

Cautions

- Take extra care when applying laminates vertically to prevent air bubble formation due to uneven pressure.
- Protect laminates from direct sunlight to prevent discoloration.
- Cracking at the corners may occur due to poor handling, improper packaging, or inadequate transportation conditions—ensure careful handling to avoid damage.
- Do not use chemicals for cleaning.
- Actual sheet colors may vary from the sample provided.
